You are cordially invited to participate in the upcoming 3rd ACM Conference on Embedded Networked Sensor Systems (SenSys 2005). This is a highly selective single-track forum for the presentation of research results on systems issues in the emerging area of embedded, networked sensors. SenSys provides a cross-disciplinary venue for researchers addressing the rich space of networked sensor system design issues to interact, present and exchange research results, and demonstrate their work in a hands-on research exhibition.

Technical Program
This year's program at SenSys consists of 21 high quality papers covering cutting edge research on a wide range of topics including sensornet services, real-world deployment experiences, networking, synchronization, applications, design frameworks, and software support. Complete details of the technical program can be found at http://sensys.csail.mit.edu.

Keynote Speakers
Two renowned speakers will provide keynote talks: Professor John Delaney from the University of Washington and Dr. Henry Tirri from Nokia.

Poster Session
SenSys will feature a poster session that will showcase recent and on-going work. There will be 16 posters featuring a range of cutting-edge research.

Demo Session
Demonstrations showing innovative research and applications will be featured throughout the conference. There will be 25 demos that include technology, platforms, and demonstrations of realistic applications of wireless sensor networks.

Registration
Registration can be completed at http://sensys.csail.mit.edu/registration.htm. Early registration will be available until October 28, 2005.

Accommodations
SenSys will take place in the city of San Diego, in sunny southern California. The conference will be hosted at the San Diego Marriott Mission Valley hotel, where a block of rooms has been reserved at a discounted rate. Reservations must be made by contacting the San Diego Marriott Mission Valley directly at 1-800-842-5329 before October 2, 2005.

NSF Student Travel Support
Financial support is available for students attending SenSys. Applications can be obtained at http://sensys.csail.mit.edu/travelsupport.htm and are due by October 3, 2005.

We look forward to seeing you in San Diego for SenSys 2005!
