Notice

- Based on your past educational achievements, I expect you to do well on this test.

Test rules

- This pledged exam is closed notes. The only device you may access during the test is your laptop.

- Do not access class examples or your own past assignments during the test; that is, the only code you may access or view are ones that you develop for this test.

- The only windows to be open on your computer are PyCharm and a single browser with tabs reachable from the class website.

- PyCharm can be used for developing the programs to be submitted. It cannot be used for the short answer questions.

- Programs should demonstrate follow style rules; e.g., header comments, whitespace, identifier naming, etc.

- Whether a program is runnable is important.

- Only output what is requested.

- Whenever a written answer is a string, surround the string with single quotes. Also, make sure the uppercase and lowercase letters are easily distinguishable.

- Whenever a written answer is a list, surround the elements with a pair of brackets.

- Whenever a written answer is a decimal, include a decimal point.

- Whenever a written answer is an integer, do not include a decimal point.

- Any form of cheating on a test can result in expulsion from the class and the incident being referred to the Honor Committee.
