## Thurs, 11 Feb: Unit 4 Assignment

- **Read** Unit 4 papers (in file drawer) by Thurs, 18 Feb:
  - Schmidt, Tennent, Jones
    - semantics, denotational semantics, lambda calculus
- **Write** --due Thurs, 18 Feb:
  - (hard) Denotational semantics, while quite expressive & comprehensive, has not always been expressive enough to describe languages completely. Identify and document three features/interactions in programming languages for which denotational semantics is (or has been) inadequate.
