

CS4102 Algorithms: Homework Cover Page

Homework #: _____ Submission Date: _____

Note: This page must be filled out and stapled to the front of your homework pages. It will be torn off before the paper is returned.

- Graded homework papers may be placed in a public place for pick-up or distributed in class in a way that other students may be able to see graded papers.
- **Do not put your name(s) on the pages of your homework** unless you agree to waive the expectation that other students will not be able to see your grade on this homework.
- Instead, on the pages of your homework, **please write the "Return ID"** for you (and your partner if you have one).
- Your Return ID will not be private, i.e. other students will be able to see it, so do not choose a Return ID that compromises your privacy.
- Please choose a relatively short name, number or phrase for your Return ID.
- Please try to use the same Return ID all semester if possible, but if you wish to change it for privacy or any other reason, do not hesitate.

Student #1 Name: _____

Student #1 Return ID: _____

If you choose to put your name on your homework pages, give your signature instead to indicate you accept that other students may see your graded paper.

Student #2 Name: _____

Student #2 Return ID: _____

If you choose to put your name on your homework pages, give your signature instead to indicate you accept that other students may see your graded paper.

Important: Below write the names of any other students that you consulted with in completing this homework:
