

## **Mark S. Sherriff**

Associate Professor, Academic General Faculty  
Department of Computer Science

### **(a) UVA and Previous Professional Appointments**

August 2013 – Associate Professor, Academic General Faculty  
Department of Computer Science, UVA  
August 2010 – reappointed as Assistant Professor, Academic General Faculty  
Department of Computer Science, UVA  
August 2007 – Assistant Professor, Academic General Faculty  
Department of Computer Science, UVA

### **(b) Undergraduate and Graduate Degrees and Postdoctoral Training**

#### **North Carolina State University, Raleigh, NC**

*Doctor of Philosophy, Computer Science*  
August 2002 – August 2007

Advisor: Dr. Laurie Williams

Topic: Analyzing Software Artifacts through Singular Value Decomposition to Guide Development Decisions

#### **North Carolina State University, Raleigh, NC**

*Master of Science, Computer Science*  
August 2002 – May 2004

Advisor: Dr. Laurie Williams

Topic: Estimating Software Reliability in a Haskell Programming Environment

#### **Wake Forest University, Winston-Salem, NC**

*Bachelor of Science, Computer Science with Honors, Cum Laude*  
August 1998 – May 2002

Advisor: Dr. Jennifer Burg

Honors Topic: Unix Tutorials to Move Students from PC/Windows to Unix

### **(c) Honors and Awards Received**

#### Major Awards

2016 IEEE Computer Society Computer Science and Engineering Undergraduate Teaching Award  
(international professional society award)  
2014 UVA All-University Teaching Award  
2010 UVA School of Engineering and Applied Science Hartfield-Jefferson Scholars Teaching Prize (first year  
ever awarded - \$12.5K prize)

#### Organization Awards

2012 UVA Association for Computing Machinery Computer Science Professor of the Year  
2011 Trigon Engineering Society Thomas E. Hutchinson Faculty Award Winner  
2010 UVA Association for Computing Machinery Computer Science Professor of the Year  
2010 Trigon Engineering Society Thomas E. Hutchinson Faculty Award Finalist

### **(d) Publications and Scholarly Work**

#### **Archival peer reviewed journal articles**

None.

#### **Archival peer reviewed conference proceedings**

**Sherriff, M.** and Floryan, M. "Achievement Unlocked: Investigating Which Gamification Elements Motivate Students." *The 23rd ASEE Annual Conference and Exposition, New Orleans, LA, June 24-27, 2016.* (Acceptance Rate: 60%)

N/A – Academic General Faculty with primary focus in teaching

#### **(g) List of Undergraduate Student Researchers**

##### Fall 2017 – Spring 2018 (2)

Lane Spangler – VR Music

Kai Ming Chang – VR Music

##### Fall 2016 – Spring 2017 (3)

Cameron Blanchford – XP Systems for Gamified Courses

Qian Xiang – Competition in Gamification Courses

Isaac Tessler – Teaching with Various Fidelities of Virtual Reality

(Also other members of the Game Design Research Group with Prof. Mark Floryan)

##### Fall 2015 – Spring 2016 (3)

Cameron Blanchford – XP Systems for Gamified Courses

Qian Xiang – Competition in Gamification Courses

Isaac Tessler – Teaching with Various Fidelities of Virtual Reality

(Also other members of the Game Design Research Group with Prof. Mark Floryan)

##### Fall 2014 – Spring 2015 (2)

Jennifer Lu – Gamification in Education

Anna Greene – Gamification in Education

(Also other members of the Game Design Research Group with Prof. Mark Floryan)

##### Fall 2013 – Spring 2014 (3)

Dru Knox – Software Maintenance Lifecycles with Non-Profit Software Systems

Travis Pennetti – Educational Video Games

Connie Xie – Automated Quadcopters with Android Devices

##### Fall 2012 – Spring 2013 (5)

Michael Legore – Software Maintenance Lifecycles with Non-Profit Software Systems

Daniel Miller – Visualizing UVa Enrollment Trends

Amanda Ray – Efficient User Interfaces for Aiding Students with Enrollment

Hunter Williams – Automated Quadcopters with Android Devices

Samuel Wilson – Automated Quadcopters with Android Devices

##### Fall 2011 – Spring 2012 (8)

Alex Johnson – Software for Non-Profit Organizations

Matt Russell – Software for Non-Profit Organizations

Erik Davis – An Evaluation of Python as an Effective CS1 Language

Harry Bowron – Open-source Software for Teaching Chemistry

Navid Hosseini – A More Cost-Effective Unattended Ground Sensor Using COTS Products

Manuel Cordovez (SIE) – A More Cost-Effective Unattended Ground Sensor Using COTS

Katie Hempenius (SIE)– A More Cost-Effective Unattended Ground Sensor Using COTS  
Reed Wilson (ECE)– A More Cost-Effective Unattended Ground Sensor Using COTS Products

Fall 2010 – Spring 2011 (11)

Jared Harding – Mobile HCI for Course Selection  
Calvin Li – Voice Interface for Portable Learning  
George Washington – Voice Interface for Portable Learning  
Bennett Sorbo – CavDaily Advertising  
Nikhita Karki – Scheduling System for Student Volunteers at UVa Hospital  
Daniel Magnusson – Motion Sickness with Video Games  
Kevin Leach – Prescription Databases  
Michale Devine – Generating Music and Art using Microsoft Kinect  
Olex Ponomarenko – Generating Music and Art using Microsoft Kinect  
Derrick Brameyer – Agile Development in Student Projects (Ind. Study)  
Alan Kush – Agile Development in Student Projects (Ind. Study)

Fall 2009 – Spring 2010 (9)

Matt Beattie – Bluetooth Identification for Vehicles  
Ryan Grigsby – Security for Emergency Announcement Systems  
Joshua Joyner – Lego Mindstorm NXT Sensor Simulation  
Seth Micalizzi – Mobile GPS Social Applications  
Charles Plucker – Mobile Virtual Reality  
Emma Rosenfeld – Teaching Time Concepts to Early Elementary Students  
John Szmuski – Bluetooth Identification for Vehicles  
Steven Trombetta – PairEval v2.0  
Jessica Vasconcellos^ – Student timecard system for Newcomb Hall

Fall 2008 – Spring 2009 (4)

Jeffery Gaither – Web Software Source Control Management and Users  
Michael Miller – An Analysis of Static Metrics in Open-Source Software Projects  
Benjamin Plunkett – UVaCollab: Compliance with FERPA  
Joshua Sennett – Compatibility of Partnered Students in Computer Science Education

Fall 2007 – Spring 2008 (4)

Eric Bradbury – A New Paradigm for Tutoring at the School of Engineering and Applied Science  
Fred Dysart – PHP Based Automated Fix for SQL Injection Attacks  
Maureen Maughn – Web-Based Kennel System in PHP and MySQL  
Danny Shih – Integrated Querying in C# using Microsoft LINQ

EN-CS NSF Showcase for DUE Projects at the ACM SIGCSE Symposium, (NSF DUE 1841616, \$68k, 9/18 – 9/22), Mark Sherriff (PI) and Aaron Bloomfield (Co-PI). The NSF Showcase at the ACM SIGCSE Symposium has been an ongoing project for over a decade. The core purpose of the project is to provide an opportunity for grant recipients from the National Science Foundation's Division of Undergraduate Education to present their projects at other times and in different ways than when final results are ready. Specifically, the Showcase allows grant recipients to circulate their ideas, get feedback, recruit collaborators and adopters, and consult with program officers much earlier in the project cycle, providing crucial insights that improve the likelihood of the projects succeeding and the findings being disseminated. The purpose of this proposal is to continue running the NSF Showcase at the next four SIGCSE Symposiums, from 2019-2022. Over the years that the NSF Showcase has been running, it has become a staple in the computer science education community at the SIGCSE Symposium, the largest gathering of CS educators annually, with over 1500 attendees in 2018. Participants in the Showcase routinely report in our evaluations that the Showcase had a significant impact on their work and helped them move their research forward. Attendees to the Showcase enjoy seeing what work is being supported by NSF DUE and often take advantage of the program officer "office hours" that are organized during the symposium. With space set aside for program officers to hold one-on-one meetings, potential grant writers and current PIs can meet and receive feedback from NSF staff. We believe that the Showcase has provided an important service to the CS education community and the SIGCSE Symposium through these opportunities and we are eager to continue offering it into the future.

NSF Showcase for DUE Projects at the ACM SIGCSE Conference, (NSF DUE 1748090, \$48k, 9/17 – 9/18), Mark Sherriff (PI) and Aaron Bloomfield (Co-PI). This extension grant was awarded to supplement the NSF Showcase at the SIGCSE Symposium for an extra year to bridge between the previous grant and the upcoming grant cycle. See the information below regarding the purpose of the NSF Showcase.

Collaborative Research: Transforming Computer Science Education Research Through Use of Appropriate Empirical Research Methods: Mentoring and Tutorials, (NSF DUE 1525028, \$1.35M Collaborative Grant w/ \$125k for UVA, 9/15 – 9/20), Mark Sherriff (Co-PI), Jeffery Carver (Alabama, Co-PI), Sarah Heckman (NC State, Co-PI). The goal of this project is to transform empirical CSEd research by building and supporting a community of CSEd researchers through: (1) creation and curation of laboratory packages to facilitate empirical CSEd research, (2) facilitation of cohorts of 10-12 educators who are mentored in developing and executing an empirical CSEd research study and (3) development and presentation of tutorials on empirical research methods at CSEd conferences. Laboratory packages are aids that provide researchers with a driving research question, a methodology for designing and executing a study, tools and resources to replicate the study, and results of previous related studies. The cohorts will have a more-focused interaction during a summer session to develop a study with a follow-up workshop to report and discuss results. Finally, the tutorials allow for broader dissemination of the key concepts of empirical CSEd research to the larger community.

Showcase for NSF DUE Projects at the ACM SIGCSE Conferences, (NSF CCLI phase I grant 1341292, \$289k, 10/13 - 9/17), Mark Sherriff (PI) and Aaron Bloomfield (Co-PI). The purpose of this grant is to disseminate information on current NSF projects on the computer science education at the annual SIGCSE conference, and to help educate potential grant applicants on the process of designing and authoring NSF grant proposals. This is intended to enhance the long-term quality and quantity of computer science education activities.

Showcase for NSF DUE Projects at the ACM SIGCSE Conferences, (NSF CCLI phase I grant 1053524, \$178k, 8/10 - 8/13), Mark Sherriff (PI) and Aaron Bloomfield (PI). The purpose of this grant is to disseminate information on current NSF projects on the computer science education at the annual SIGCSE conference, and to help educate potential grant applicants on the process of designing and authoring NSF grant proposals. This is intended to enhance the long-term quality and quantity of computer science education activities.

Motorola Droid Phones for Teaching Web Services, (Google University Relations, \$14k in mobile phones, 3/10), Mark Sherriff and Tom Horton. The purpose of this award is to introduce mobile phone technologies at various levels in the UVA CS curriculum.

Google TVs for Teaching Web Services, (Google University Relations, 2 Google TV devices, 4/10), Mark Sherriff and Tom Horton. The purpose of this award is to supplement Android technologies at various levels in the UVA CS curriculum.

## **(j) Keynotes and Invited Presentations**

### Keynotes

Sherriff, M. "The Role of Computer Science in Engineering Education." Interdisciplinary Engineering Design Education Conference (IEDEC), Santa Clara, CA, March 3, 2014.

### Invited Presentations

Tychonievich, L, Sherriff, M, and Layer, R. "Counting Rooms." Nifty Assignments Panel, SIGCSE 2015, Kansas City, MO, March 2015.

Sherriff, M. "Why are we engineers?" Trigon Engineering Fraternity Thomas E. Hutchinson Faculty Award Dinner, January 2014.

Sherriff, M. "Introductory Computing Across Engineering Disciplines." National Academy of Engineering – Frontiers of Engineering Education. Irvine, CA, Oct 2013.

Sherriff, M. "Teaching Faculty Birds of a Feather." ACM SIGCSE – 2013 symposium through present.

Sherriff, M. "Six Strikes." Look Hoo's Talking 2013. Lecture series hosted by UVA Student Council. University of Virginia, March 28, 2013.

Sherriff, M. "The Battle for Your Entertainment – The Internet, SOPA, and Censorship." The Jefferson Literary and Debating Society, University of Virginia, February 3, 2012.

Sherriff, M. "Encryption Chase – Assignment for CS2." Nifty Assignments Panel, SIGCSE 2010, Milwaukee, Wisconsin, March 2010.

Sherriff, M. "DevCOP – A Software Certificate Management System for Eclipse." Portland State University, Portland, OR, May 26, 2006.

Sherriff, M. "Defect Density Estimation Through Verification and Validation." The 6th Annual High Confidence Software and Systems Conference, Lithicum Heights, MD, April 17-19, 2006.

None

**(l) Internal Service and Leadership at UVA**

Department of Computer Science

- Founding Director, Center for Innovation in Computing Education and Outreach (2017-present)
- Chair, CS 2020 Curriculum Redesign Committee (2015-present)
- Chair, Undergraduate Curriculum Committee (2011-present)
- CS Undergraduate TA Hiring Coordinator (2007-present)
- CS Undergraduate Research Matching Coordinator (2010-present)
- Academic General Faculty Hiring Committees (multiple times)
- Advisor, Student Game Developers Club (2009-present)
- Undergraduate Advisor (approx. 45 majors per year)

School of Engineering and Applied Science

- Chair, SEAS Undergraduate Curriculum Committee (2013-present; member since 2010)
- Chair, SEAS Undergraduate Committee on Academic Standards (2016-present)
- SEAS General Faculty Committee (2010-present)
- SEAS Student Affairs Committee (2010-2016)
- Orientation Advisor (2008-present)

University of Virginia

- UVA Academy of Teaching (2013-2018)
- University eText Pilot Advisory Committee (2012-2013)
- Panelist for Academic Forum for Board of Visitors (Dec 2017)

**(m) List of professional services, identifying leadership roles in service assignments such as conference organizer roles and journal editorial board**

Significant Service to ACM Special Interest Group on Computer Science Education (SIGCSE)

- Symposium Associate Program Chair (SIGCSE 2017-2019)
- Symposium Webmaster (SIGCSE 2018 – <http://sigcse2018.org>)
- Symposium Database Co-Chair (three-year appointment, 2018-2020; responsible for submission systems and conference mobile app)
- Symposium Birds-of-a-Feather Program Co-Chair (SIGCSE 2019)
- NSF Showcase Organizer (SIGCSE 2008-present)
- Reviewer (SIGCSE 2008-present)

Journal Guest Editor

- ACM Transactions on Computing Education (TOCE) – Special Issue on Capstone Projects, Volume 18 Issue 2, July 2018 - <http://doi.acm.org/10.1145/3229882>
